Acknowledgments

The work published in this book is the result of my research for a Ph.D. degree at the Central European University in Budapest.

I would like first of all to thank the late Professor István Bóna. He was kind enough to show me all the unpublished data from the cemeteries he had excavated and which are analyzed here and discussed his findings with me in great detail. Without his help this work would not have been possible.

I should also like to thank the following persons for reading and correcting the text, giving me helpful suggestions and discussing all of my findings with me: Walter Pohl, József Laszlovszky, Cristina La Rocca, Tivadar Vida, and Alice Choyke, who in particular also worked on the corrections of the first English version.

I am also grateful to: Stefano Gasparri, Sauro Gelichi, Falko Daim, Patrick Geary and Frans Theuws for their assistance and their interest in my research.

I should also like to thank Anna Moore for correcting the last English version of this work.
